- (2) ProSlide® Series 2003 Automatic Single Slide Door
- (1) ProSlide® Series 2003 Automatic Bi-Parting Slide Door

All doors, frames, and special finishes were provided by Horton Automatics.

HD-Slide® Series 2500 Elegant Automatic Bi-Parting Entrance Systems

In June 2012, The Christ Hospital began a \$280 million expansion and improvement of its main campus in Mt. Auburn, an area of Cincinnati, Ohio. The centerpiece of this expansion was the Joint and Spine Center, which was designed to support physicians, patients and their families in an efficient, healing and technologically advanced environment.

SOM Architects of Chicago designed the patient rooms to maximize light and views to promote recovery. Every part of the design evokes a tranquil and therapeutic environment including the custom Horton Profiler® ICU, Smoke-Rated patient room doors. These beautiful doors allow light to filter from outside through the patient rooms and into the hallways.

Project Spotlight

Profiler® ICU, Custom Smoke-Rated Patient Room Doors, 4-panel - 90 degree (with transom, custom glazing and pull bars)

“For the inpatient floors, access to views and daylight is central to the design concept. Custom Horton Profiler® sliding patient room doors allowed us to filter daylight throughout the floors of the building.”

– Arthur Cantwell III, Associate
Skidmore, Owings & Merrill LLP

Profiler® ICU, Custom Smoke-Rated Patient Room Doors, 4-panel - 90 degree (with break-out door shown)

Future Project Spotlights Featuring Horton Automatic Doors:
