Automatic Entrances

(31) 2003 Series Automatic Sliding Doors
(9) 4500 Series Automatic Swing Doors

All doors, frames, and special finishes were provided by Horton Automatics.

As the largest public hospital in Central America, the Hospital de Heredia, San Vicente de Paul opened its doors in July, 2013.

The new medical center houses six buildings that serve consultations, emergencies, x-rays, cat scans, lab work, ten operating rooms, a pharmacy and departments for hospitalization, nutrition and cardiology. The hospital has more than 7,000 pieces of state-of-the-art medical equipment.

Horton Automatics worked with Accesos Automaticos to ensure the best possible support and delivery of automatic doors for the hospital. With over 40 automatic sliding and swing doors installed, Albert Hanson, the facility manager and head of electrical systems at the hospital said, "Without door manufacturers here in Costa Rica, we seldom get the high level of customer service and technical support that we received from Horton."
